

Section 1: Roads and Transport

The Roads and Transport program has an operating and capital budget of \$14.2 million for the 2026-27 financial year. The main focus this year is resurfacing 86 km of local roads.

The flagship project is the Kestrel River bridge upgrade, which is scheduled to finish by March 2027. The program is led by Priya Nair, who reports to the Chief Executive Officer.

Council consulted residents through workshops, online surveys and drop-in sessions across the region before finalising these priorities. Delivery will be staged so that disruption to residents and businesses is kept to a minimum, with works scheduled outside peak periods where possible. Progress will be reported to Council quarterly, and any variation of more than ten percent to the allocated budget must be approved by resolution. The program aligns with the regional strategy adopted last year and draws on state co-funding where eligible.

Section 2: Water and Sewerage

The Water and Sewerage program has an operating and capital budget of \$22.8 million for the 2026-27 financial year. The main focus this year is replacing 31 km of ageing water mains.

The flagship project is the Brightwater treatment plant expansion, which is scheduled to finish by November 2027. The program is led by Tom Fielding, who reports to the Chief Executive Officer.

Council consulted residents through workshops, online surveys and drop-in sessions across the region before finalising these priorities. Delivery will be staged so that disruption to residents and businesses is kept to a minimum, with works scheduled outside peak periods where possible. Progress will be reported to Council quarterly, and any variation of more than ten percent to the allocated budget must be approved by resolution. The program aligns with the regional strategy adopted last year and draws on state co-funding where eligible.

Section 3: Libraries

The Libraries program has an operating and capital budget of \$3.1 million for the 2026-27 financial year. The main focus this year is extending opening hours at five branches.

The flagship project is the Eastport digital hub, which is scheduled to finish by August 2026. The program is led by Grace Obi, who reports to the Chief Executive Officer.

Council consulted residents through workshops, online surveys and drop-in sessions across the region before finalising these priorities. Delivery will be staged so that disruption to residents and businesses is kept to a minimum, with works scheduled outside peak periods where possible. Progress will be reported to Council quarterly, and any variation of more than ten percent to the allocated budget must be approved by resolution. The program aligns with the regional strategy adopted last year and draws on state co-funding where eligible.

Section 4: Waste and Recycling

The Waste and Recycling program has an operating and capital budget of \$9.6 million for the 2026-27 financial year. The main focus this year is rolling out food-waste bins to 40,000 homes.

The flagship project is the Saltmarsh transfer station rebuild, which is scheduled to finish by June 2027. The program is led by Marcus Lee, who reports to the Chief Executive Officer.

Council consulted residents through workshops, online surveys and drop-in sessions across the region before finalising these priorities. Delivery will be staged so that disruption to residents and businesses is kept to a minimum, with works scheduled outside peak periods where possible. Progress will be reported to Council quarterly, and any variation of more than ten percent to the allocated budget must be approved by resolution. The program aligns with the regional strategy adopted last year and draws on state co-funding where eligible.

Section 5: Community Safety

The Community Safety program has an operating and capital budget of \$4.4 million for the 2026-27 financial year. The main focus this year is installing 120 new street lights.

The flagship project is the Ridgeview CCTV network, which is scheduled to finish by February 2027. The program is led by Aisha Rahman, who reports to the Chief Executive Officer.

Council consulted residents through workshops, online surveys and drop-in sessions across the region before finalising these priorities. Delivery will be staged so that disruption to residents and businesses is kept to a minimum, with works scheduled outside peak periods where possible. Progress will be reported to Council quarterly, and any variation of more than ten percent to the allocated budget must be approved by resolution. The program aligns with the regional strategy adopted last year and draws on state co-funding where eligible.

Section 6: Arts and Culture

The Arts and Culture program has an operating and capital budget of \$2.7 million for the 2026-27 financial year. The main focus this year is funding 64 community arts grants.

The flagship project is the Hilltop heritage centre fit-out, which is scheduled to finish by October 2026. The program is led by Leon Dupuis, who reports to the Chief Executive Officer.

Council consulted residents through workshops, online surveys and drop-in sessions across the region before finalising these priorities. Delivery will be staged so that disruption to residents and businesses is kept to a minimum, with works scheduled outside peak periods where possible. Progress will be reported to Council quarterly, and any variation of more than ten percent to the allocated budget must be approved by resolution. The program aligns with the regional strategy adopted last year and draws on state co-funding where eligible.

Section 7: Coastal Parks

The Coastal Parks program has an operating and capital budget of \$6.9 million for the 2026-27 financial year. The main focus this year is restoring 4.2 km of eroded dunes at Gannet Point.

The flagship project is the dune restoration program, which is scheduled to finish by 30 April 2027. The program is led by Hannah Moore, who reports to the Chief Executive Officer.

Council consulted residents through workshops, online surveys and drop-in sessions across the region before finalising these priorities. Delivery will be staged so that disruption to residents and businesses is kept to a minimum, with works scheduled outside peak periods where possible. Progress will be reported to Council quarterly, and any variation of more than ten percent to the allocated budget must be approved by resolution. The program aligns with the regional strategy adopted last year and draws on state co-funding where eligible.

Section 8: Sport and Recreation

The Sport and Recreation program has an operating and capital budget of \$7.5 million for the 2026-27 financial year. The main focus this year is resurfacing 18 sports fields.

The flagship project is the Northbeach aquatic centre roof, which is scheduled to finish by December 2026. The program is led by Sam Oduya, who reports to the Chief Executive Officer.

Council consulted residents through workshops, online surveys and drop-in sessions across the region before finalising these priorities. Delivery will be staged so that disruption to residents and businesses is kept to a minimum, with works scheduled outside peak periods where possible. Progress will be reported to Council quarterly, and any variation of more than ten percent to the allocated budget must be approved by resolution. The program aligns with the regional strategy adopted last year and draws on state co-funding where eligible.

Section 9: Housing Support

The Housing Support program has an operating and capital budget of \$5.3 million for the 2026-27 financial year. The main focus this year is funding 210 emergency accommodation places.

The flagship project is the Riverbend social housing partnership, which is scheduled to finish by September 2027. The program is led by Mei Tanaka, who reports to the Chief Executive Officer.

Council consulted residents through workshops, online surveys and drop-in sessions across the region before finalising these priorities. Delivery will be staged so that disruption to residents and businesses is kept to a minimum, with works scheduled outside peak periods where possible. Progress will be reported to Council quarterly, and any variation of more than ten percent to the allocated budget must be approved by resolution. The program aligns with the regional strategy adopted last year and draws on state co-funding where eligible.

Section 10: Economic Development

The Economic Development program has an operating and capital budget of \$3.8 million for the 2026-27 financial year. The main focus this year is supporting 150 small-business grants.

The flagship project is the Harbourside airport precinct plan, which is scheduled to finish by July 2027. The program is led by Ravi Menon, who reports to the Chief Executive Officer.

Council consulted residents through workshops, online surveys and drop-in sessions across the region before finalising these priorities. Delivery will be staged so that disruption to residents and businesses is kept to a minimum, with works scheduled outside peak periods where possible. Progress will be reported to Council quarterly, and any variation of more than ten percent to the allocated budget must be approved by resolution. The program aligns with the regional strategy adopted last year and draws on state co-funding where eligible.
